Goodhart Sons Inc. Completes Spray Dryer Expansion Project

Goodhart Sons, Inc., a steel fabricator and installer in Lancaster, PA. was contracted by an equipment supply company to perform the fabrication, freight and installation of a structural steel tower for a 40 foot diameter spray dryer and auxiliary equipment.

The project consisted of the fabrication and installation of approximately 410,000 lbs. of steelwork. While they are no stranger to working on large structural steel projects, this was the first major project of this magnitude to use their beam drilling line that was installed in December of 2011.

The scope of work also involved the installation of all of the auxiliary equipment for the spray dryer such as cyclones, ductwork, fans etc. A span of 8 months separated the start of fabrication and the completion of the installation.

Goodhart Sons, Inc. is a fully equipped steel fabricator and installer located in Lancaster, PA. with over 175,000 square feet of production space. They are ASME Section VIII, Division I board certified in possession of their R, S and U stamps as well as an AISC Member and are up to the challenge of completing your project with the highest level of quality, on time, and within budget.

Goodhart Sons, Inc. also employs millwrights, riggers, welders, pipefitters, electricians and insulators that travel the country and abroad to install the projects that they fabricate as well as many types of OEM equipment and production lines. Goodhart Sons, Inc. has the experience, knowledge and resources to plan and execute complicated shut-downs.
