Goodhart Sons Inc. Completes Fabrication and Installation Of VAM Emissions Control Abatement System

Goodhart Sons, Inc., a steel fabricator and installer in Lancaster, PA. was contracted by a pollution control equipment supplier to provide the detailing, fabrication, shipping and installation of a VAM Emission Control Abatement System.

The project consisted of the fabrication and installation of structural steel, equipment, ductwork, exhaust stacks, platforms and piping of the entire system including the pyroblock of the pollution control equipment. Goodhart Sons, Inc. used over 40 tractor trailer loads to move the fabricated items from their fabrication site in Lancaster, PA. to the mountains of West Virginia for installation.

Goodhart Sons, Inc. is a fully equipped steel fabricator and installer located in Lancaster, PA. with over 175,000 square feet of production space. They are ASME Section VIII, Division I board certified in possession of their R, S and U stamps as well as an AISC Member and are up to the challenge of completing your project with the highest level of quality, on time, and within budget.

Goodhart Sons, Inc. also employs millwrights, riggers, welders, pipefitters, electricians and insulators that travel the country and abroad to install the projects that they fabricate as well as many types of OEM equipment and production lines. Goodhart Sons, Inc. has the experience, knowledge and resources to plan and execute complicated shut-downs.
