Overview

Goodhart Sons, Inc. is a leading provider of high-quality fabrication, rigging, and equipment installation services. Founded in 1935, Goodhart Sons is a 4th generation family owned business that employs a team of 150 skilled professionals serving customers across the United States. Our Lancaster, Pennsylvania headquarters and fabrication facility includes over 175,000 square feet of production space on a 16-acre complex with more than 4 acres of yard space.

Capabilities

Fabrication

Our team provides specialized fabrication of equipment and structures. We have experience working with specific materials, including steel, steel alloys, stainless steel, duplex stainless steel, aluminum, aluminum base alloys, nickel, and nickel base alloys.

- 35 certified welders, WPS to ASME IX and AWS codes (GTAW, GMAW, FCAW, SAW, MCAW)
- Design and modeling – AutoCAD, Tekla, AutoCAD Inventor, SolidWorks
- Waterjet, laser, and hi-def CNC plasma cutting
- In-house Certified Non-Destructive Testing – Magnetic particle, liquid penetrant, visual, ultrasonic

Installation

We provide non-union installation services and employees that travel the country to install the projects that we fabricate as well as many types of OEM equipment and production lines. Our field crews are licensed in several states.

- Millwrights
- Electricians
- Riggers
- Insulators
- Welders
- MSHA part 46 certified
- Pipefitters

Facilities & Equipment
